| <b>Scouting</b><br>D.S.Senanayaka College <ul style="list-style-type: none"><li>• Participated in camping events and teamwork activities</li></ul>                                                             | 2021 – 2023 |

## PROJECTS

---

### **ICC ProcuraX, Group Project**

- A centralized communication and management system as a mobile application for the ICC construction company.
- Contributed to the design and development of the ICC ProcuraX system by implementing core features such as document page, smart calendar, and notes and tasks saving page, settings page and designed the UI/UX functionalities using figma.
- Used Node.js for backend and Flutter for frontend development.

### **Student Record System, Individual Project**

- Developed a student records system using python, Tkinter.
- The system saves the students details such as name, stream, etc. and allows the user to find any students detail.

### **Atlantis, Group Project**

- Developed a responsive web page about marine life.
- Contributed for the development of the Content page, site map, and the home page with responsive designs.
- Built using HTML and CSS and JavaScript.

### **System for Managing Rental Agreements and Payments, On Progress**

- An ongoing development of a web-based platform designed to help landlords and tenants create and manage rental agreements, securely track rent payments, and maintain digital contract records.
- Built using React with Vite for the frontend and Java Spring Boot for the backend.
